Dear Mr. Colvin:

The Division of Water Resources issued coverage under the General NPDES Permit for Storm Water Discharges Associated with Construction Activity (CGP) to Federal Express Corporation on October 31, 2013.

An amended NOI, to include a new contractor as a co-permittee under the CGP for the site, was received in our office on November 4, 2014. Enclosed is the updated Notice of Coverage (NOC) form which shows the site name and location, receiving stream, effective date of coverage, etc. Although we recorded information regarding the new contractor, we do not normally transmit a copy of this letter to your contractor(s). You should make sure that all contractors listed on the NOI are aware of the General Permit requirements. The following contractor is now included on the Notice of Coverage as a co-permittee at the site.

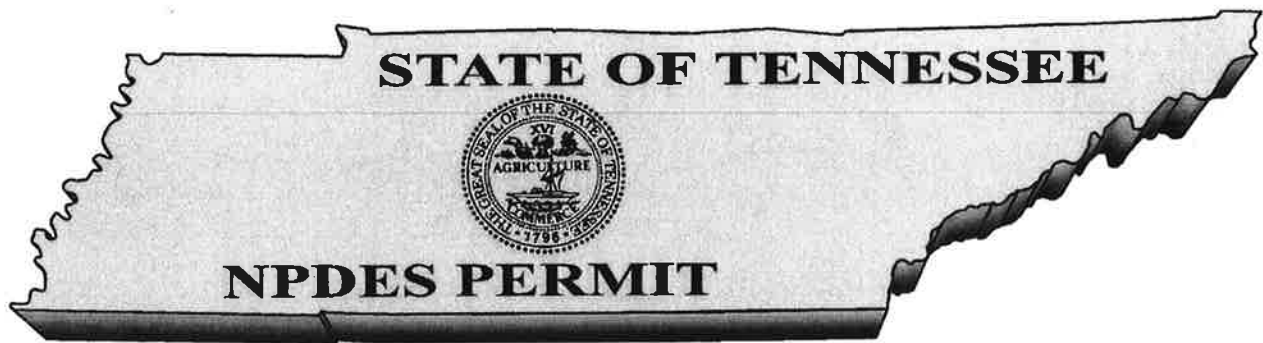

***-MSKTD Build, LLC***

We appreciate your attention to the general construction storm water permit and its requirements. We believe this does make a difference to the quality of state waters. If you have any questions, please contact Mr. Cliff Caudle at (901) 371-3028 or by e-mail at [Cliff.Caudle@tn.gov](mailto:Cliff.Caudle@tn.gov).

Sincerely,

Joellyn Brazile, CPESC  
Environmental Program Manager
